

FOR YOUTH DEVELOPMENT®  
FOR HEALTHY LIVING  
FOR SOCIAL RESPONSIBILITY

March 17, 2020

Dear Parents,

As you know, across the Metropolitan Washington region our local public schools have temporarily closed as the result of a state government directive or where local jurisdictions are following the guidance of the Centers for Disease Control (CDC) to promote social distancing. To likewise support these directives, the YMCA is suspending all of its school age programs while our local public schools are closed.

The YMCA leadership will continue working on any contingency plans that may need to occur in the event the risk level changes. We will send timely updates via email communications and look forward to seeing all of our families soon.

If you have any questions regarding these procedures, please contact your Y branch.

Sincerely,  
Your YMCA Leadership Team.
