Improves muscle definition

The Y's Aquatic Programs encourages children and adults to live healthier
Lifestyles, have fun and be safe in
The water.

Our aquatic programs help to combat
startling water-related statistics that
drowning is the number cause of
unintentional deaths, according to the
Centers for Disease Control. The Y provides
techniques for water safety for all.

Youth can take advantage of programs that range from beginner to
advanced swimming. As youth grows, opportunities are available to learn
CPR or become certified lifeguards.

For adults, there are additional benefits of swimming or participating in
water activities such as

- Improves flexibility
- Reduces inflammation
- Lowers stress and depression
- Burns greater amount of calories
- Improves blood flow
- Lowers blood pressure

REFUND/CANCELLATION POLICY

The YSS aquatics department will only credit/refund money due to family emergencies or medical reasons with a doctor's

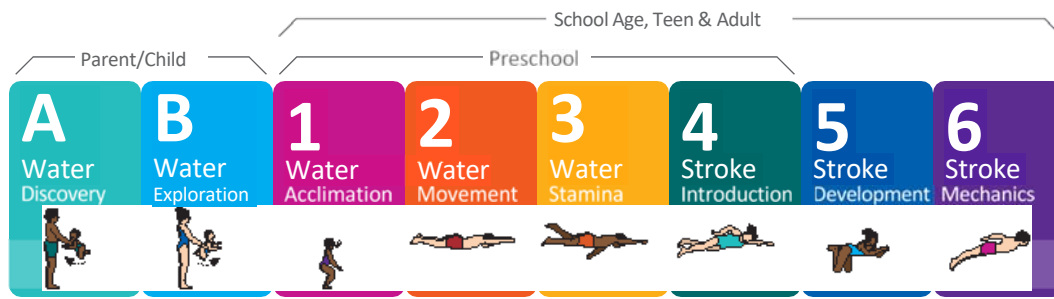

- Any credit/refund made after the start of a session will be prorated at the discretion of the Aquatics Director.
- The YMCA does not offer make-ups for individual absences.
- If verified illness prohibits class attendance, and is reported to the YMCA Aquatics Staff, a makeup lesson will be given. A doctor's note must be submitted.
- All programs have a minimum enrollment number of three participants. Programs with fewer participants may be combined or canceled. You will have the option of receiving a full refund/credit or switching to another similar price program or class.
- Only the Aquatics Director will approve refund for a reason not mentioned above.

MISSION OF THE YMCA OF METROPOLITAN WASHINGTON

To foster the spiritual, mental and physical development of individuals, families and communities according to the ideals of inclusiveness, equality and mutual respect for all.

YMCA Swim Lessons

STAGES

All age groups are taught the same skills but divided according to their developmental milestones.

EVERYTHING THE Y DOES IS IN SERVICE OF BUILDING A BETTER US.

One of the most effective ways to accomplish this is to teach youth, teens, and adults to swim, so they can stay safe around water and learn the skills they need to make swimming a lifelong pursuit for staying healthy. Y swim instructors are nationally certified. Their training includes CPR, AED, First Aid and Oxygen Administration. Swim lessons provide important life skills that could save a life and will benefit students for a lifetime.

WE'RE HERE FOR EVERYONE

All ages—from infants to seniors—can learn to swim. Check out our class offerings to find one that fits your family's busy schedule.

SWIM STARTERS

Accompanied by a parent, infants and toddlers learn to be comfortable in the water and develop swim readiness skills through fun and confidence-building experiences, while parents learn about water safety, drowning prevention, and the importance of supervision.

A / WATER DISCOVERY

Parents accompany children in stage A, which introduces infants and toddlers to the aquatic environment through exploration and encourages them to enjoy themselves while learning about the water.

B / WATER EXPLORATION

In stage B, parents work with their children to explore body positions, floating, blowing bubbles, and fundamental safety and aquatic skills.

SWIM BASICS

Students learn personal water safety and achieve basic swimming competency by learning two benchmark skills:

- Swim, float, swim—sequencing front glide, roll, back float, roll, front glide, and exit.
- Jump, push, turn, grab while parents learn about water safety, drowning prevention, and the importance of supervision.

1/ WATER ACCLIMATION

Students develop comfort with underwater exploration and learn to safely exit in the event of falling into a body of water in stage 1. This stage lays the foundation that allows for a student's future progress in swimming.

2 / WATER MOVEMENT

In stage 2, students focus on body position and control, directional change, and forward movement in the water while also continuing to practice how to safely exit in the event of falling into a body of water.

3 / WATER STAMINA

In stage 3, students learn how to swim to safety from a longer distance than in previous stages in the event of falling into a body of water. This stage also introduces rhythmic breathing and integrated arm and leg action.

SWIM STROKES

Having mastered the fundamentals, students learn additional water safety skills and build stroke technique, developing skills that prevent chronic disease, increase social-emotional and cognitive well-being, and foster a lifetime of physical activity.

4 / STROKE INTRODUCTION

Students in stage 4 develop stroke technique in front crawl and back crawl and learn the breaststroke kick and butterfly kick. Water safety is reinforced through treading water and elementary backstroke.

5 / STROKE DEVELOPMENT

Students in stage 5 work on stroke technique and learn all major competitive strokes. The emphasis on water safety continues through treading water and sidestroke.

6 / STROKE MECHANICS

In stage 6, students refine stroke technique on all major competitive strokes, learn about competitive swimming, and discover how to incorporate swimming into a healthy lifestyle.
